EXPERIENCE

Frontend Engineer [Busiman](#) Remote (Jun 2024 - JAN 2026)

- Scaled and maintained Busiman’s core SaaS platform by integrating advanced GraphQL APIs and implementing a fully automated end-to-end testing pipeline using Playwright and Storybook.
- Engineered a high-performance, in-house UI library from the ground up, optimizing component rendering for low-spec hardware and enhancing developer productivity.
- **Tech Stack:** JavaScript, TypeScript, React, Next.js, Storybook, GraphQL, AWS, Jest, Playwright

PROJECTS

Foody — Creator & Maintainer [Web Link](#) • [GitHub Link](#)

- Foody is a full-stack restaurant management platform with RBAC and restaurant-level restrictions, offering POS-style orders, payments, and menu/user management, built with Next.js + Tailwind on the frontend and an Express–GraphQL API using PostgreSQL, Prisma, Redis, and Jest/Playwright testing.

Lucide Note — Creator & Maintainer [Web Link](#) • [GitHub Link](#)

- Built a TypeScript monorepo with Next.js 15, React 19, multi-tenant API routes, Auth.js authentication, and full note-taking features backed by PostgreSQL + Prisma. Styled with Tailwind/shadcn-ui, tested with Jest and Playwright, deployed on Vercel, and maintained with pnpm, Turborepo, husky etc.

Ruma-ui — Creator & Maintainer [Storybook Link](#)

- Developing a production-ready React UI library in an Nx monorepo using TypeScript and Tailwind, with MDX-based documentation, Jest/Vitest testing, automated releases via Changesets, consistent code styling, and integrated package registry tooling.
